INSTRUCTION TO GRADUATE STUDENTS SEEKING FOR AUTHENTICITY CERTIFICATION

What is Turnitin?

Turnitin is an internet-based plagiarism detection system, which compares content of a paper against a database of sources.

Files should be in MS Word format. To avoid unnecessary errors, you are strongly advised to use the 'spellchecker' function of MS Word. Before submitting your thesis/dissertation, ensure that your paper was not previously subjected for authenticity testing using Turnitin

STEPS IN OBTAINING AUTHENTICITY CERTIFICATION

Step 1

Send a request for Authenticity Test to the Graduate Research Office.
The Graduate Research Office (GRESO) will assess your thesis/dissertation

Step 2

After their initial assessment on your thesis/dissertation, GRESO will send us a copy of your thesis/dissertation together with your official receipt to the Publication Office (thru e-mail).

Step 3

Upon our receipt of your thesis/dissertation, we will re-subject your paper to antiplagiarism test.

Step 4

If the Similarity Index Result is 25% and below, you will receive an e-mail informing that you can claim your Authenticity Certificate at our office (Rm. 202 Orata Bldg.). If your Similarity Index Result is above 25%, your need to revise your paper and resubmit the revised paper for re-run to acquire certification.
